

## Session 2: Emissions and Inventories (15:45 – 17:00)

Time (GMT)	Activity	Moderators/Speakers	Title
		Geofísica, Universidad de Chile, Santiago, Chile)	
<b>15:50-16:35</b>	<b>Panel Presentations (Invited)</b>		
15:50-16:05		<b>Brian McDonald</b> (NOAA Chemical Sciences Laboratory, Boulder, CO, USA)	Developing Near Real-time Emissions over the US during the COVID-19 Pandemic
16:05-16:20		<b>Andriannah Mbandi</b> (South Eastern Kenya University, Kenya)	The Integrated Assessment of Air Pollution, Climate Change and Sustainable Development in Africa
16:20-16:35		<b>Mauricio Osses</b> (Departamento Ingeniería Mecánica, Universidad Técnica Federico Santa María, Chile)	Transport Emissions in Chile, Current Situation and Looking Ahead for a Carbon-Neutral Future?
16:35-16:45	<b>Oral Presentation (10 min)</b>	<b>Astrid Manders</b> , Renske Timmermans, Antoon Visschedijk et al.	Improving Black Carbon Modeling: Emissions and Model Evaluation
<b>16:45-17:00</b>	<b>Panel Discussion</b>		

- **Please stay within the allocated time.** The speaker will be alerted with **2 min** left and again when **the time is up**. The microphone may be **muted** to allow the next speaker to start.

### Online Discussion:

- During presentations questions and comments to the speakers can be made through the “Q&A” function of the platform.
- During the panel discussion direct questions can be made using the “Raise hand” option and I will invite you to ask question verbally.
- Direct questions can be made to the speaker through the Chat box. If no time is left for discussion, the speaker will reply in the Chat during the break or later.
- The speaker can also be contacted directly through email message for additional information.
