

10th International Workshop on Air Quality Forecasting Research

viernes, 22 de octubre de 2021

Session 5.: Using Observations for Model Evaluation (13:00 - 14:20)

time	[id] title	presenter
13:00	[7] Introduction (moderator)	CRAWFORD, James
13:05	[51] The Building Blocks For Informative Model Evaluation Activities	JENSEN, Tara
13:20	[15] Validation of the Copernicus Atmosphere Monitoring Service forecasts and reanalyses	ESKES, Henk
13:35	[17] Air Quality Evaluation System: Central México Case Study	Dr GARCÍA, Agustín
13:50	Panel Discussion	
14:05	[11] Development and Evaluation of North America Wildfire Ensemble Forecast: Initial Application to the 2020 Western United States “Gigafire”	MAKKAROON, Peewara
14:12	[32] Routine Multi-model Performance Analysis over North America for Six Operational Air Quality Forecast Systems	MORAN, Mike
